

The Invitation Place made a custom seating chart for our wedding. The quality, detail and professionalism displayed by the owner, Julie was top notch. The quality of work definitely far exceeds the price charged and was well worth the investment.

Our seating chart received compliments from many of our guests, varying in age and provided simplicity to a rather complex wedding event. The best compliment was received from guests of ours who are soon to be married. They loved the idea of a seating chart so much, they planned on using it in their own wedding. With that being said, I highly recommend Julie and her company for the quality of work, professionalism, customer service and value.

On a side note, one of my favorite parts of the seating chart was the ability to bring it home and hang it up in our home. Seeing the seating charts provides for many great memories and reminds us daily how lucky we are to have such great friends and family in our lives.

We were very pleased with everything that we received through Julie. We had originally planned to order our invitations online, but it was too hard to determine the quality of the various papers, so we contacted The Invitation Place. Julie was able to fit me into her schedule very quickly. She let me browse through the sample books and she recommended which vendors could provide the invitations we wanted within the time constraints that we had. She was patient with helping us work out the wording for the invitations. Everything came in perfect condition and on time. Julie took all of the time and stress out of ordering the invitations. A couple months later, I emailed Julie when I needed some ideas on how to complete our paper wedding favors. She responded quickly and gave us a simple suggestion that saved us a lot of money and time. I would definitely recommend her to anyone looking for wedding invitations.

Julie was very accomodating and patient. I loved how my invitations turned out and I appreciated that she took the time to show us how to put them together. We also ordered a table chart and Julie was flexible when I had last minute changes. The chart was a little pricey, but overall it looked great and was ready for pick up with plenty of time to spare. I'm really glad I chose the Invitation Place for handling my invites!

Julie from The Invitation Place was extremely helpful in helping me pick and format my wedding invitations, programs, table cards, and place cards. There were many, many designs to choose from and she helped me narrow down my choices based on my preferences and budget. Additionally, if I ever had a question about wording, color, font, etiquette, etc., Julie was very helpful in providing feedback. I would definitely recommend The Invitation Place to any bride!

The Invitation Place is run by a very professional and polite woman named Julie. She was very easy and fun to deal with and had myriad options for invitations. She was also very helpful when it came to sorting through all of them. Once we had everything picked out, she made absolutely sure that there would be no typos or errors of any kind. The invitations themselves arrived quickly and looked perfect. My wife and I received many compliments on them! Throughout the entire process, Julie was very quick with all aspects of communication. It wasn't unusual to receive a response via email within an hour or two. To summarize, I would highly recommend The Invitation Place. From start to finish the entire experience was excellent!

I got my beautiful wedding invitations from the Invitation Place. Julie was amazing! She brought out hundred of samples for me to go through and helped me narrow them down tot the one I really loved. She was very patient and never pushed me to make my decision. After choosing the invitations Julie walked me through the steps on how to word them, especially with proper etiquette. If I bought my invitations on-line (by myself) I would have looked over so many etiquette requirements. Julie made the whole process fun and stress-free, I would recommend her to anyone!!

Julie was amazing! I got a late start on picking out invitations for my wedding and Julie was incredibly helpful with expediting the process. She is very detailed oriented and was able to catch a small error when looking over the sample that the distributor had made. She spent a great deal of time making sure the invitations came out perfectly! We are still receiving compliments on how amazing the invitations were. Julie's customer service, flexibility, and expertise make her outstanding to work with!

Julie is fantastic!!! I knew I wanted traditional wedding invitations with a rectangular single sided invitation instead of the modern pocketfold style. For some reason, I had the hardest time finding someone in GR who could offer this service, and I knew I didn't want to order online without seeing and feeling the samples. Julie has what seems like a million invitation binders and most are organized based on style. She had me go through probably 5 or so books and I found a couple choices I liked. I am kind of a stickler for grammar, and she knew all the rules regarding wording, etiquette, and grammar. Most people do not know this, but the year should be written out as "two thousand eleven," NOT "two thousand and eleven." I have received fancy invitations that have the "and", but Julie knew it was not supposed to be there. When I confirmed she knew this, I was even happier I chose her!

I also used Julie for purchasing specialty paper for our programs and menu cards. She is a dealer for a company that offers pretty much any type of paper in any color in any sheen in any size. After having trouble finding a place to print our menu cards due to their narrow width, I contacted Julie and she offered suggestions and ultimately told me we would figure something out if the suggestions did not work out. In the end, I had to go to a specialty print shop, which cost a little extra, but they turned out well and Julie's offer of help was a nice backup.

In addition, I also used Julie for our seating chart poster. After a few edits, including switching to the 2 fonts I was using for everything, the poster came out BEAUTIFULLY. I was and still am VERY happy with it. I saw the poster again 2 weeks after the wedding and again felt so happy with our choice to use her for it.

Overall, Julie is FANTASTIC and I was SO happy to have found her business here on Wedding Wire. I will definitely recommend her to everyone I know in GR who needs invitations. She knows how to do traditional invitations but at the same time I am confident she knows how to do the more modern style invitations as well, which makes her an excellent choice for anyone!

Julie was excellent! I was having problems with my original invitation vendor and with little time left, I had to switch to a different vendor. I found Julie. She was perfect. She helped me find what I needed within my budget in a very limited time frame. I'm not sure what I would have done without her. She's also very prompt in responding to emails, which was nice, especially as a stressed out bride.
