

I had found the perfect invitations on Etsy but researching and talking to all the printers about the printing was a hassle. In an attempt to help me a friend of mine found The Invitation Place online and suggested I give them a try. I am so glad I did. I sent the files to Julie, she got me a quote promptly and I simply picked everything up when it was ready. She printed my save the dates, invitations and programs and I couldn't be happier. The Invitation Place offers a selection of wedding stationary that you can choose from as well so please consider Julie, she is fabulous to work with and low stress in a very stressful time.

Julie was great to work with for my wedding invitations, she was able to be flexible availability, had a large array of invitations to choose, very knowledgeable in the field and easy to work with. Great communication with us also. I wanted someone local and would highly recommend.

I'm extremely happy that I choose The Invitation Place. The wedding invitations, place cards, and thank you cards were absolutely beautiful. There were hundreds of designs to choose from and Julie was always willing to help me find the perfect invitations. The invitations had an amazing quality and were ready as promised.

Julie from The Invitation Place was AWESOME! She was extremely easy to work with and was very patient with our decision making. We had absolutely beautiful invitations that didn't break the bank. When we went in for our first meeting with her she asked a few questions about what we were looking for and instantly had a handful of invites to chose from. She was not pushy and let us make our own decision. About a month before our wedding we decided to do a large poster seating chart (really late, we know!) she had a mock made up and emailed to us within a day. The poster was available for pickup within 5 days. Everything turned out gorgeous! We loved working with Julie and would 100% recommend her to anyone who wants invitations to be an easy check off your "to-do" list!

We were very happy with our wedding invitations! Julie was very friendly and had so many samples for us to look at. Once she got an idea of the style we wanted she was very knowledgeable about different ideas that would fit our vision. Would definitely recommend The Invitation Place for any wedding invitation needs!

After firing our invitations vendor 4 months before the wedding, I was in a huge panic about getting invitations that I was happy with as a reflection of me. My fiance called Julie who assured us we still had enough time and there was nothing to worry about. She made time for us to meet with her multiple times and provided countless options. She has plenty of samples in her office so we could see and touch the items. My fiance and I are both auditors and were extremely detailed in our instructions/comments on what we wanted. I'm happy to say that Julie nailed it. She personally checks every single printed item for quality before handing them over to you. I had a few envelopes that were misaligned, but she took care of calling the vendor and getting replacements. Her prices are affordable, and the expertise/consulting aspect (free of charge!) was key.

We were so lucky to find Julie for our Wedding! We were planning a destination wedding and she helped with everything! Invitations, table number cards, wedding programs, hotel guest itineraries, poster seating charts, cocktail napkins, and thank you cards... We don't know what we would have done without her. She is extremely professional, ensures all of your items follow the same theme, offers great ideas, many many options that you could spend hours going through, and much patience through the whole planning process. Thank you, Julie, everything was perfect!
